VOL. IX. NO. 45.

CROSSFIELD, ALBERTA. FRIDAY, OCTOBER 27th, 1916.

PRICE \$1 A YEAR.

LAUT BROS.

Figure It Out Yourself !!

Those New Portable Granaries you are building need Paint--you are sure of that--but it will cost too much--let's see.

12 by 14 by 8 feet equals approximately 500 square feet of surface. Four Granaries make 2,000 square feet.

Three Gallons of SHERWIN-WILLIAMS COMMONWEALTH BARN RED PAINT will cover them all with a single, rich, enduring coat of Brilliant Red. The cost, \$1.80 per gallon. Two coats would be better, but you can apply the other when you have more time. A 75c. brush and a few hours will do the work.

Think of the satisfaction, the appearance and the value of neatly painted buildings.

We have the goods in stock, what do you think?

Don't Cough Your Throat Sore, Don't Suffer, USE "Nerviline," It Will Cure You Quickly

The Annoyance of a Bad Cough Soothed Away in One Day

Nothing so bad for the throat as coughing, and nothing half so annoying as to have someone near by that is hacking, coughing, sneezing, or constantly clearing the throat.

But on Nerviline it will save you all further pain and distress. Even one good rub with this soothing, penetrating remedy will bring the finest relief, will take that rasping, soreness, will stop that irritating tickle that makes you want to cough so much.

Nerviline isn't something new. It has a record of forty years of wonderful success behind it.

In rubbing on Nerviline, you use something safe, reliable and sure to cure. Its action is marvellous. The way it sinks in through the tissues—the way it penetrates to the seat of the congestion is really a wonder.

For chronic colds, coughs, or sore throat you can't beat this trusty old remedy.

For chronic colds, coughs, or sore throat you can't beat this trusty old remedy. Its name spells cure for any sort of pain in the joints or muscles. Try it for rheumatism, sciatica, or lumbago, test it out for neuralgia or headache—in every case you'll find amazing relief and curative power.

Most families keep the large 50c bottle always handy on the shelf, size 25c, at all dealers in medicine, or the Catarthozone Co., Kingston, Canada.

NERVILINE

The Birth of a Nation

A Thrilling Drama Shown in Motion Pictures

The unqualified success attending the production of "The Birth of a Nation" last season decided C. P. Walker, of Winnipeg, to again secure the attraction for the western towns, and the mightiest spectacle, the eighth wonder of the world, will make its reappearance at the Walker, Winnipeg, for three days with daily matinees, commencing Thursday, September 28.

This will be the third visit (the picture having already been presented four weeks in Winnipeg), and the little double capacity house will again be the order. After playing the Manitoba capital, the company goes to the Orpheum Theatre, Brandon, for the entire week commencing Monday, October 2nd, where two performances daily will be offered. Regina is the next city to be played, where two shows daily, commencing Thanksgiving Day, Monday, October 9, will be presented.

For three days, commencing Thursday, October 19th, the Empire Theatre, Saskatoon, will be played, and from there the organization travels West towards Vancouver. Arrangements are being made to run special trains from the small towns and villages into Winnipeg, Brandon, Regina and Saskatoon, and there is little doubt that many will avail themselves of the opportunity to see the greatest photoplay the world has ever seen or is likely to see for many a day.

"The Birth of a Nation" as presented in the above towns will be precisely the same as the one now playing the Massey Hall, Toronto, for the fifth week, and comprises not only 12,000 feet of film, but carries a sixty-foot car of scenic, sound and lighting effects, and last, but by no means least, must be mentioned the excellent symphony orchestra of no less than twenty-five carefully selected musicians.

Two bankers were talking about a financier who had failed.

"And did you accept his failure like a man?" asked the first.

"Exactly like a man," the second answered. "He blamed it on his extravagant wife."

The Non-Cathartic Nature Cure for

Constipation

Helps the System to Cure Itself.

You cannot cure constipation by violent means. Violence is never effective against nature. That is why the use of morning salts and purgative pills so easily become a habit. These things do not cure the trouble; they only force matters, and in so doing weaken the bowels till natural action becomes impossible, and you have to go on taking your pills or salts indefinitely. Compare Dr. Cassell's Instant Relief. This great tonic laxative helps nature by strengthening the bowels, natural action is restored and a cure effected which is real and lasting.

Dr. CHAS. F. FORSHAW, D.Sc., F.R.M.S., a well-known British Scientist, writes: "I never take Saline or Purgative for Constipation—to force bowel action is to aggravate the trouble and create the Constipation habit. I recommend treatment Dr. Cassell's Instant Relief."

Take Dr. Cassell's Instant Relief for constipation, biliousness, torpid liver, acid indigestion, dizziness, headache, and other ailments, and you will find it a most reliable and effective remedy.

Price 50 Cents from all Druggists and Bookstores, or direct from the sole agents for Canada, Harold V. Ritchie and Co., Ltd., 10, McCall Street, Toronto. Tel. 742. 2 cents extra.

Women As Inventors

Many Notable Inventions Are the Result of Ingenuity of Women

Women are generally considered lacking in inventive ability. The truth is that they have been taking out patents steadily since 1700. It must be confessed that these ideas have not always turned out a complete success, but, then, the world has progressed as a result of many mistakes other than those of inventors. How few women ever realize as they ply their needles that it was a Scotch woman, Christian Shaw, the daughter of the Laird of Balgarran, in Renfrewshire, who was the first to produce linen thread, as far back as 1729; her idea was developed later by the big Paisley firms of Clark and Coats.

Silk weaving was invented by the wife of the fourth Emperor of China, in the dim ages of antiquity; a woman in the harem of an Indian prince invented the weaving of cashmere shawls; the same clever woman or her mother (authorities differ on the point) discovered the art of robes; while a poor Italian woman rediscovered the secret of Venetian print lace, which had been lost for nearly 600 years. Madame Curie's triumph as the discoverer of radium is still fresh in the public mind, as is that of Dr. Maria Montessori, whose methods are likely to revolutionize the art of teaching in the near future.

Brief Report

Pai Garvey, section foreman at Truckville, was formerly in the habit of sending long and detailed reports to the supervisor. Oftentimes his daily report would contain three or four pages. The supervisor became weary of wading through a mass of detail and ordered Garvey to "boil his reports down." "You aren't writing love letters," was the supervisor's rebuke, "but railroad reports." Soon after this ultimatum was received by Garvey, the memorable cloudburst and flood occurred at Truckville. This is the laconic report that Garvey sent in:

"The river is where the railroad was."—Idolour, Tex., News.

Asthma Brings Misery, but Dr. J. D. Kellogg's Asthma Remedy will replace the misery with welcome relief. Inhale as smoke or vapor it reaches the very inner recesses of the bronchial passages and soothes the irritation and brings easy breathing returns. If you knew as well how this remedy would help you as thousands of grateful users there would be a package in your home tonight. Try it.

"Who is your favorite composer?" "Wagner," replied Mr. Cunrox. "You must be a student of music." "No, I mention Wagner for the sake of relieving myself of conversational strain. If the other man doesn't like Wagner, he won't want to hear me say another word."

"And if he does?"

"He'll want to do all the talking himself."—Washington Star.

To safeguard the child from damage that worms cause, use Miller's Worm Powders, the medicine par excellence for children. These powders will clear the system entirely of worms, will regulate and stimulate the organs injuriously affected by the worms, and will encourage healthful operation of the digestive process. As a wormicide, it cannot be surpassed in effectiveness.

Raincoats Made of Paper

Inexpensive emergency raincoats which can be folded up and carried in a pocket or handbag are being made to fill the need so sorely felt when one is caught in a storm without any form of waterproof protection. These garments are made in sizes suitable for men, women and children, and come in two grades. The cheaper article is made of tough paper only, coated on one side, and is designed to be used but once; the other is reinforced with cloth inside, and with proper care can be worn several times.—Popular Mechanics Magazine.

Stefansson Plans to Discover Extent of the New Northwest

A letter has been received by G. J. Desbarrats, deputy minister of naval service, from Dr. Anderson, of the Stefansson northern exploration party, who some time reached Nome. The letter gives additional details of the work done by the party and supplies some information as to Stefansson's future movements.

The letter states that Stefansson's plan had been to make a northerly circuit around the new land, which he discovered a year ago, with the object of discovering its extent and whether any territory existed north of there.

As a result of the fact that his ships did not succeed in getting far north in 1915, however, and of trouble with his dogs, the explorer was unable to carry out his design. He had reached his new land last May, but it is understood that he will winter at Winter Harbor, on Melville Island. The schooner Polar Bear, one of the vessels of the expedition, was expected to reach this port this summer and form a winter base there.

Kent Chipman, one of the members of the southern party who travelled to Edmonton by the overland route, instead of going to Nome with the rest of his companions, has reached Ottawa and is preparing his report to the Geological Survey Department. Mr. Chipman, who was topographer with the expedition, travelled south by way of the Mackenzie and Athabasca rivers.

Canadian Red Cross Society,
Crossfield, Alta.

Dear Mrs. Thomas:
I beg to acknowledge with thanks receipt of your cheque for \$15, being the donation from the Crossfield Women's Institute to adopt two prisoners of war for three months.

Will you convey our grateful thanks to the members of this Institute for their continued support. I hope some day to be able to forward you the names of the prisoners. So far the lists have not been sent to us.

With kindest regards to you all,
Yours faithfully,
M. PINKHAM,
Honorary Secretary-Treasurer
Alberta Provincial Branch.

The Women's Institute

At the last meeting of the Women's Institute a discussion was raised as to the advisability of starting the Rest Room, and a Committee was formed to inquire into ways and means to the same. The committee to report at the next meeting to be held on November 4th, when it is hoped there will be a large attendance. The members also voted that \$15 be subscribed to the Prisoners of War Fund, for the support of two prisoner for three months. The report of the annual convention at Edmonton was also read by the Secretary and the meeting closed by a pianoforte solo by Miss Burslem, and the singing of the National Anthem.

How to Sell Your Grain

The Crossfield District Association has placed a Loading Elevator for members of the U.F.A. to load their grain into the cars. Farmers would do better to sell their grain on consignment, and not on track. It takes 15 to 17 days to go to the lake front, and you have 10 days free storage. Weigh your grain, load it and close up the car, have the agent seal it and sign the bill of lading, sign it yourself, take your bill of lading over to the bank and draw on the commission firm you consign your grain to for 75 per cent. of your money, preferably to one of your own companies; the Grain Growers Grain Co., or the Alberta Farmers Co-operative Elevator Co., Calgary. Pin your bill of lading to the shipping bill, and have the bank manager sign it, and forward to the commission firm, and you will thus have more money for yourselves, your wives and children for the necessities of life.

Signed on behalf of the Elevator Board.

Pretty Wedding

TURNER—WHITFIELD

A pretty wedding was solemnized at the Church of the Ascension, Crossfield, on Wednesday afternoon, when Mary, the fourth daughter of Mr and Mrs. R. Whitfield, of Crossfield was joined in wedlock to Sergt. Morley Turner, only son of Mr. and Mrs. W. M. Turner of Calgary. The bride who was attired in a suit of Copenhagen blue, trimmed with fox fur, with a charming picture hat of white felt and carried a corsage bouquet, was attended by her sister May, who was neatly attired in a brown velvet dress with a black picture hat. The bridegroom who was attired in his regimentals and was attended by Jas. Beislaw, brother-in-law of the bride. The bride also wore a valuable set of fox furs, the gift of the bridegroom. The present of the bride to the bridegroom was a splendid dressing case. The bridesmaid and best man also wore presents, the gift of the bride and bridegroom. The Rev. J. P. Dingle, was the officiating minister at the service which was choral, and the church was crowded with the relations and friends of the contracting couple, Miss E. Colling officiated at the organ and after the service led the Wedding March from "Lohengrin." The reception was afterwards held at the home of the bride, where the relations and a few friends of the happy couple partook of high tea. After tea the evening was spent in songs, recitations, and games. The Rev. J. P. Dingle in a felicitous little speech proposed the toast of the evening, to which the benedict replied, and Rev. H. M. Horricks proposed the health of Mr. and Mrs. Whitfield, to which the former replied.

The happy couple were the recipients of numerous and costly presents, amongst which was a cheque from the officers and men of

the 14th A.S.C., and a splendid timepiece and silver plant stand from the officers and men of the Veterinary Hospital.

ROBERT WHITFIELD,

PRINTER AND PUBLISHER.

CROSSFIELD, ALTA., OCT. 20, 1918.

Premier Appeals to Men and Women of Canada

On Monday evening Sir Robert Borden issued an appeal to the people of Canada, both men and women, to increase their efforts and aid in the prosecution of the war. He asks the people to assist and co-operate with the government and the national service commission in the work to be undertaken by that body.

The appeal is as follows:

"To the people of Canada:
"The world-wide struggle in which our Empire is fighting for its rights, its liberties and its very existence, has continued for more than two years. Every effort that could be honourably made on our part to avert war was put forth with the deepest earnestness and sincerity. There was no escape from the contest save in dishonour and ultimate disaster. The wonderful extent and thoroughness of the enemy's long and careful preparation was imperfectly understood at first, and the magnitude of the struggle has surpassed all anticipations. Great Britain's first expeditionary force has been increased more than twenty-fold and that of Canada more than twelve-fold. The climax of the war is rapidly approaching. The last hundred thousand men that Canada will place in the fighting line may be the deciding factor in a struggle, the issue of which will determine the destiny of this Dominion, of our Empire and of the whole world.
"The most eloquent tribute was to do fitting honor of the youth of Canada who have already rallied so splendidly to the colours, and whose heroic valor and glorious achievements have crowned this Dominion with imperishable distinction before the world. Remembering the sacrifice by which that distinction was won, we recall with solemn pride the undying memory of those who have fallen.
"In the history of every people there may come such a challenge to the spirit of its citizens as must be answered in service and devotion if the nation is to have an abiding place in the future. The events of this war bring that challenge to day to the manhood of Canada.
"Since the war began more than three hundred and seventy thousand men have enlisted in this Dominion. Two hundred and fifty-eight thousand have gone overseas, and more than one hundred thousand are now in the battle line. During the first ten months of the present year the number sent forward will aggregate one hundred and forty thousand. From January 1 to April 15 of this year the enlistments were at the rate of nearly 1,000 per day. Up to the present our forces have been enlisted and organized more rapidly than facilities for transportation and communication in Great Britain could be provided. During the past four months, the number of enlistments has gradually decreased, and it is probable that in the future, the time has come for this appeal.
"Notwithstanding the success of the allied forces in various theaters during the past summer, there is reason to know that the enemy is still strong and determined. A mightier effort than any imagined is necessary to procure a conclusive victory. This war must have so decisive a result that the lasting peace can be secured. We are fighting, not for a truce, but for victory.
"In all mechanical appliances which have been played a great part in this war the allied nations have almost, if not quite, overtaken the enemy's standard of preparation. Therefore, the result will depend upon the organization of the man-

power of the allied nations. Canada must be strong and resolute in that great endeavor.

"Our strength can be almost effectively thrown into this conflict by utilizing, as our national activities for sustaining the agricultural, industrial and commercial stability of Canada, those who, through age or by reason of physical condition, are not available for service at the front. To the end that we may place in the battle-line the greatest possible proportion of those fit for military service. With this view the government has asked the director-general and the directors of national service to undertake duties of the highest importance and urgency. It is imperative that the men and women of Canada, individually and through their various organizations, shall serve the nation in those capacities in which their service may be of the most value. Thus, it is the earnest duty of the Canadian people to join with the government in organizing the full power of the nation in human energy.

Appeal to the People

"I am invested, and in the name of the state which we are all bound to serve, it is my duty to appeal, and I do now appeal most earnestly to the people of Canada that they assist and co-operate with the government and the directors of national service to undertake duties of the highest importance and urgency. To men of military age I make the appeal that they place themselves at the service of the state for military duty. To all others I make appeal that they place themselves freely at the disposition of their country for such service as they are deemed best fitted to perform.

Appeal to the Women

"And to the women of Canada whose spirit has been so splendid and so inspiring in this hour of devotion and sacrifice, I bid God speed to the manifold works of benefit in which they are so engaged and I pray them to add still more in every field of national service for which they may feel themselves fitted to serve.

"Let us never forget the solemn truth that the nation is not constituted of the living alone. There are those as well who have passed away and those yet to be born. So this great responsibility comes to us as heirs of the past and trustees of the future. But with that responsibility there lies some something greater still, the opportunity of proving ourselves worthy of it; and I pray that they may feel themselves fitted to serve."
